### Price Increases

There are some price increases this year although thankfully not across the whole board. All doormats, brooms & brushes and reels of chain have gone up but not much else.

### Yet More Rope!

We continue to develop our position as a leading independent rope supplier in the UK by adding yet more to our stock range. Nylon and Polyethylene ropes & braids mainly for marine and fishing applications are the most recent additions.

### Warehouse Expansion

Despite having storage containers in our yard we are rapidly running out of space! Plans are afoot to build an additional warehouse on our plot which will double our square footage.
